

Statement of the head of the Research Section 1938-1945

I hereby accept the final report of the Committee evaluating the Research Section 1938-1945. As the report contains no recommendations, there can be given no detailed opinion. The secondary employment of the Section's Head commented in the report is of limited extent only and within "reasonable limits". It is this engagement which helped to launch long-term multi-level cooperation with the university and thus to support the strategic direction of the Section and the debate on the dominating historical narrative and methodological approaches.

Mgr. Dita Homolová, Ph.D., head of the Research Section 1938-1945
